Enrollment Gets Underway at WT

Classes Will Start Today in All Departments; Good Attendance Is Expected

"A highly satisfactory enrollment period," said President J. A. Hill yesterday afternoon, when asked if the 1943 college session was starting off well. It is now believed that the number of students will be surprisingly large, considering the demands of the armed services and industry, and the pressure on all people who have certificates to teach.

Tuesday, freshmen tests were given throughout the day, so that the registration of freshmen and upper classmen was carried on at different times. Those who watched the freshman registration were pleased at the number of boys in the group.

Social life began Tuesday evening with open house at Cousins Hall and tonight the first mixer for freshmen will be held in the Administration Auditorium. The first general assembly will be Tuesday at 12:00.

On Tuesday night at 7:30 in the Education auditorium, there will be a meeting of all townspeople who are interested in evening classes in any subject. People from sixteen to 80 are invited if they wish to study.

Inspection Tires 'A' Holders Before End of September

"A" book holders must have the second official inspection of their tires by Sept. 30.

"B" book holders must have their third inspection by Oct. 31.

"C" book holders must have their fourth inspection by Nov. 30.

"T" book holders must have their second inspection within six months of the last inspection, or every 5,000 miles, whichever comes first.

Speedometer readings should be written on the records.

Women Who Will Knit and Sew Are Wanted Red Cross

Shelves have been built in the new Red Cross headquarters this week, so that materials can be properly cared for. The new headquarters is on the ground floor in the building just west of the post office.

All women who can sew or knit are invited to visit the work room on Monday, Wednesday and Friday from three o'clock until six.

Mr. and Mrs. T. T. Tanner have returned to their home at Terrell after spending two weeks in the home of their daughter, Mrs. K. E. Frieze.

Pfc. C. N. Tippery and wife returned home with Mrs. Lee Chandler to Sayer, Oklahoma.

Cpl. Ned Love, who is stationed at Lubbock, spent the week end here with his wife and little son.

New instructor is added to Commercial Department of West Texas State College.

Meeting Will Be Held Tuesday p.m. Adult Education

All citizens of Canyon who are interested in adult education are asked to meet at the Education Auditorium on Tuesday night, Sept. 28, at 7:30 o'clock.

Dr. S. H. Condon states that it is necessary for the group to meet at that time in order to organize classes and to make plans for meeting places and time for the various classes.

A large number of Canyon people have sought information regarding this work, states Dr. Condon, and he expects that the list of local citizens enrolled will be large.

The charge of \$7.50 per person is made for each course. College instructors will meet local groups at any time or any place that is agreed upon. Dr. Condon states that a number of clubs are considering taking courses, and plans must be adopted at the meeting Tuesday night for carrying out the program.

Western Auto Has Moved Location

T. E. Allen has moved the Western Auto Associate Store from the north side of the square to the building south of the First National Bank. The change was made in order to secure a larger floor space for the business.

The stock is being re-arranged at the new location in order to give better service to the customers.

1/C Yeoman Tom Langston, former secretary to President Hill, is here on furlough visiting his mother, Mrs. T. W. Langston. Yeoman Langston is stationed in New Orleans.

Cpl. George Vineyard returned Saturday to his camp in Louisiana after spending his furlough here with Mrs. Vineyard at the home of her mother, Mrs. T. S. Maxwell.

Cpl. Curtis W. Samples, Jr., of the U. S. Marine Corps, is here on a 10-day furlough to visit with his parents. He reports back to North Carolina after his furlough.

Canyon Schools Postponed Week

Classes Will Start Next Monday, After a Last Minute Change In Plans

At a meeting of the trustees of the Canyon Independent School District Friday night it was decided to postpone the opening of school for a week. There have been no cases of infantile paralysis developed here. All schools of the Panhandle, with the exception of Amarillo, opened this week.

The training school opened Tuesday and buses bringing children to the training school have operated according to schedule.

Supt. J. B. Speer states that opening next Monday will follow the plan as announced last week.

At this meeting two new trustees were elected to fill vacancies on the board of trustees. Clay Cooper will take the place vacated when Worth A. Jennings, Jr., moved to Arizona. J. W. Spencer will take the place of Lynn Heizer, deceased.

Fall Term of District Court Opening Monday

The September term of District Court will open Monday.

Judge Henry S. Bishop will instruct the grand jury as the first business of the term. District Attorney Jim Lumpkin will direct the hearings of this group of men.

Owing to the fact that there is little chance for jury cases during the term, no petit jurors were summoned for the first week. Jurors were selected for the term at the close of the spring term and will be notified if there is need for a jury.

STORK SPECIAL

A son, Leslie Davis, was born Sunday to Cpl. and Mrs. Roy Joe Stevens, at an Amarillo hospital. Cpl. Stevens is here to be with his wife and baby.

Seaman J. W. (Jack) Brien is here on a short furlough from the Naval Training Station at San Diego.

Miss Anita and Bill Davis returned Thursday from a month spent with relatives in Indiana.

I CAN'T!

If you feel that you can't buy War Bonds, take a few minutes off, and write your reasons on this piece of paper; then mail it to one of the 525 Randall County boys, many of whom are at the fighting front. Your son, or your friend may be facing the hell-fire of modern war—your son or your friend may be lying, body torn, on a blood-stained battlefield far away from home. Tell him the facts; tell him that you just CAN'T buy War Bonds!

Back the ATTACK!
Buy EXTRA War Bonds

Every Citizen Asked Increase Bond Purchases

With One More Week to Go All Must Buy Bonds to Their Limit In Order to Meet the County's Quota

Randall county citizens have bought a little more than half of the quota for the Third War Bond Drive.

The county has a long way to go in order to meet its obligation, but every effort will be made to complete the quota by the end of the month.

The total sales up to yesterday were \$132,172.50.

With a quota of \$259,000, Randall county citizens lacked \$126,827.50 of meeting the quota.

There are only seven more days before the close of the drive. During that short time every citizen should do his best to meet the quota.

Those who have bought bonds during the drive are urged to consider the needs of the boys who are facing the bullets of our enemies; and then go back and buy more bonds. That is the only way by which the county will be able to meet the quota.

No check has been made of the number of persons who have bought bonds and those who have not bought. It is probable that there are many persons in Randall county who have not bought bonds. Perhaps they have intended doing so, and they are therefore urged to make their purchases at once.

County Chairman R. H. Wright states that the executive committee and group leaders will meet to make a check of the county. Citizens will be asked to BUY AGAIN; buy MORE BONDS in order that the quota shall be met. It will take hundreds of small bonds to finish up the quota. Randall county did not fall down on the two previous drives, and has met all other calls in the war program.

The deadline is Sept. 30—just one week more, and every citizen is urged to BUY MORE BONDS before the deadline is reached.

Two Randall County Soldiers Helped in Shocking Wheat

Sgt. Chas. Sutton and Cpl. Melvin Leavitt were home over the weekend from their camp at Garden City, Kansas. Both were in the group of 250 soldiers who were released from training at this camp in order to assist farmers in the Dakotas with their wheat harvest.

Cpl. Leavitt stated that the soldiers did not receive additional pay for this work. The farmers paid the army 60 cents per hour for the work of the men. His group was out from Aug. 8 to Sept. 15. Most of the farmers provided good food for the men, and that the work was greatly enjoyed by the men.

General George Marshall, chief of staff, stated Monday in Washington that the induction of fathers was necessary in order that the war program could be carried out as planned. He predicted a longer war and a much greater loss of life would result if Congress stopped the inductions of fathers at this time.

No Papas Called Here to Meet the Oct. Contingent

Randall county will not call pre-Pearl Harbor fathers in October, unless there is a second call for men under Selective Service.

The call for Oct. 8 is for four men. This quota will be filled by single men. One pre-Pearl Harbor father volunteered Monday and wanted to go at once, but the local board had no place for him on this call. Under regulations single men must be inducted first, followed by married men without children.

All members of the local board attended a four county meeting in Hereford Thursday night at which time an officer from State Headquarters outlined future procedure. It is estimated that one out of every twelve pre-Pearl Harbor fathers will be called into the army before the end of 1944.

General George Marshall, chief of staff, stated Monday in Washington that the induction of fathers was necessary in order that the war program could be carried out as planned. He predicted a longer war and a much greater loss of life would result if Congress stopped the inductions of fathers at this time.

Feed Crop Is Ahead of Wheat

Farmers Report Yields as Being Surprise; Acreage Is Above That of 1942

The Randall county feed crop is much better than last year according to reports being received from farmers from various parts of the county. The southwest section of the county is especially good, and maize will run as high as 40 bushels per acre.

Combines are cutting milo in all sections of the county. This crop is reported to be running from 15 to 30 bushels per acre. Many farmers who thought their feed crop would be an almost failure now find that much grain is being produced.

It is estimated that the row crop acreage is about one-third larger than last year.

Due to the fact that there is more cattle in the county than ever before, feed will be very scarce this year. Little feed has been raised over the Southwest.

Rev. Armstrong Broke Arm in Fall

Rev. C. C. Armstrong broke his right arm Tuesday afternoon when he fell from a ladder at the Country Club.

Rev. Armstrong and Hud Prichard were gathering grapes when the ladder fell with the pastor. His right arm was broken just below his shoulder.

Tax Rolls Ready for County; Will Collect Oct. 1st

Tax Collector M. E. Cantrell states that the tax rolls for Randall County have been completed and ready for collection of taxes on October 1.

No collections may be made on the 1943 tax rolls until the first day of October. All tax payers will be notified on that date of the amount of their 1943 taxes.

A discount of 3% will be allowed on taxes paid during October; 2% if payment is made during November; 1% if the payment is not made until December; but the full amount will be due January 1, and unpaid taxes will become delinquent on February 1, 1944.

Frank A. Zahrt Is Commissioned 2nd Lieut. Sept. 15

Lieut. Frank A. Zahrt received his commission as Second Lieutenant and is here for a 10-day leave before reporting back to Camp Barkeley.

Lieut. Zahrt was a newspaper man from LaPorte, Ind., before coming to Canyon last fall. He was employed at Pantex before entering the army in the spring. He was commissioned in the Medical Administrative Corps, which is a new branch of the service to look after all details of the Medical Corps in order to release doctors from administrative work.

READY FOR ACTION

Private First Class Ivan H. Bulard, U. S. Marine of 1120 Ninth Avenue, has been graduated from the Field Telephone School at the Marine Corps Base at San Diego.

He is now ready for assignment to active duty with a combat unit as communications man, or to a school for further instruction.

Sgt. Jimmie Holston and wife, who was formerly Robbie Foster, visited in the home of her parents, Mr. and Mrs. R. E. Foster, over the week end. Sgt. Holston left Monday for Baltimore, Md., where he was transferred. Mrs. Holston will visit in the home of her parents.

Mr. and Mrs. T. S. Stevenson were in Silverton Monday to attend the funeral of Roscoe Stevenson, nephew of Mr. Stevenson. The young man was killed in a truck accident.

Mrs. Bob Barker and children of Belin, N. M., is visiting at the home of her sister, Mrs. Hubert Pond. Mr. Barker will come after them the latter part of the week. Mrs. Barker is the former Edith Wiggins.

Mrs. Hattie Brasuel has returned from a visit with her daughters in Enid, Okla., and Nashville, Tenn.

A Job Being Well Done

The President reported to Congress Friday on the conduct of the war. Congressmen from Republican ranks charged that the report was partisan since the President talked about the war and left domestic problems undiscussed.

A number of us armchair strategists were discussing the war the other day and almost unanimously agreed that we were making a mess of the conduct of the war, and that too many mistakes were being made—foolish, silly mistakes. We agreed that if this and so had been done, the results would have been much better.

That all sounds very well and is satisfactory to the armchair strategist who has not been within 5,000 miles of the battlefield.

Let us consider the fact that the United States has always been a peaceful nation. That after 1918 we said "To hell with Europe—we're going home to look after our own affairs." That by 1933 we had an army of only 160,000, and we looked with more or less scorn upon every man who wore the uniform as engaged in a useless and unnecessary business.

Remember how we were shocked when President Roosevelt told us how many thousand planes, ships, tanks, and trucks and munitions we had to produce in order to whip the Nazi forces. Most Americans believed deep in their hearts that our oceans were unpenetrable barriers, until the Japs knocked some sense into our poor heads, and Hitler's subs operated within a few feet of our shores.

We got busy in a big way after all this happened. We have developed the largest and best war machine in the world in a period of about 22 months. Naturally a lot of mistakes have been made. Anyone will make a lot of mistakes when he gets in a big hurry.

We have put over a whole lot of a job in a very short period of time. Naturally we may argue now that we should have taken lessons from Europe and started preparing long before we did. But remember how the isolationists were howling right up to the time of Pearl Harbor that we were in no danger, and that we should stay out of that mess over in Europe. The tragic part is that 90 per cent of America believed these fairy stories, and were never sold on the war until we were forced into it.

Yes, we have come a long way, and we never would have come so far, so rapidly without a Chief who was more farsighted and more venturesome than the people of the nation.

In spite of the mistakes which are so evident to all of us, we have come a long way in a very few months.

Poor old Mussolini is supposed to have been retaken by the Germans and to have talked over the radio the other day. Just why any one in Italy would believe anything he said is beyond us. Since Old Muss started the war by invading Ethiopia, the Italians have had nothing but misery and suffering as their lot.

ACCORDING TO ORDERS

Out for a drive in her pony-cart, an elderly lady managed to get involved in some army maneuvers. As she approached a bridge, a sentry stopped her.

"Sorry, madam," he said, "you can't cross this bridge. It's just been destroyed."

The old lady peered at it through her spectacles.

"It looks all right to me," she murmured. Then, as another soldier came along, she asked:

"Excuse me, but can you tell me what's wrong with this bridge?"

The soldier shook his head.

"Don't ask me, lady," he replied; "I've been dead two days."

"It seems to me that in times like these you should get a job of some sort."

"You'd think so; but the trouble is everybody wants a reference from my last employer."

"Well, and can't you get it?"

"No, sir; he's been dead 29 years."

DON'T LET 'EM

RUN OVER

Keep them in good condition and you will save your ration stamps.

WORTH'S SHOE SHOP

Too Much Confusion

How many times have you heard the civilian remark: The legislature (or Congress) never does anything except talk. The legislative halls are nothing but commotion and confusion—the members do not know what it is all about.

Every once in a while some one visits the newspaper office and remarks: We do not see how you can work in all this noise and confusion.

A few years ago we visited the largest automobile plant in the world. Thousands of workers were at various jobs, and to us there was nothing but confusion. Had we been turned loose to run the thing, there certainly would have been more confusion.

We have learned from experience that where there is confusion, work is being accomplished. Loud noises mean industry, unless it comes from the soap box orator who tells us how to do things he has never done.

Back of each movement—unless the untrained—is a motive.

Back of the noise is a purpose.

The civilian does not understand this and he looks only at the superficial because he has no idea as to what it is all about.

The war has a lot of noise and confusion, but back of this confusion is one big idea, and evidently, the idea of complete victory will finally be accomplished.

A commentator raised a pertinent question the other day: We are unwilling to spend public money in peacetime, but are willing to throw it away by the billions in time of war. In spite of being the greatest nation on earth—which we acknowledge—we still have the worst crime record in the world; we still have many uneducated people; we still have many diseases for which the cause or cure have not been discovered; we still have flood and drought; we still have underfed and underprivileged people in the nation; we have thousands of boys and girls who need medical attention in order to make them physically fit. In times of peace, we are content to allow everyone to go their individual way, and not be too much concerned about the personal affairs of others. But when the peace and dignity of the nation is disturbed by war, we wonder why so many of our young men are physically unfit for military service. When the war is over, we should look after domestic problems which are such a blot upon the well-being of the nation.

Those who thought that there would be no trouble in taking Italy have had a rude awakening. When the casualty list is published, we shall be more thoroughly convinced that Hitler is determined to make us pay very dearly for every mile we take in that ill-fated nation. We are getting so close to German soil that Hitler must fight desperately and make us pay as dearly as possible for our victory. The lives of men mean nothing to Hitler. The Germans are so engrossed with the idea of racial superiority that they are willing to die for the cause. Americans who have faced the German soldiers are not nearly so badly fooled by the enemy as most Americans who are safe at home.

The News has criticized the idea of inducting pre-Pearl Harbor fathers until all available single men and married men without children have been taken into the army. However, we became very suspicious when Senator Wheeler introduced his resolution to stop induction until the first of January. Wheeler has shown himself to be such an unwise and irate isolationist, and would like to run for president on such a platform, that we cannot become enthusiastic over his proposal.

It is revealed that Australian authorities had invited Wendell Willkie to make a goodwill trip to that country. Willkie was agreeable, but when he submitted the plan to the White House, Mrs. Roosevelt was chosen to make the trip. Willkie has been getting much favorable publicity on his other trips. You know that 1944 is presidential election year, and the President has not yet said he would not run for a fourth term.

ALL BUT

The whole regiment knew that the British colonel was a bad horseman. When the order to move off was given, the band struck up the regimental march. The colonel's horse was not fond of music, and everybody was interested in its antics, so interested that the front rank of the first company bunched up in the middle.

"Ease off," shouted an officer.

"No, 'e ain't," shouted a recruit, "but 'e soon will be."

A MATTER OF TASTE

A man sat down at a lunch counter and ordered four poached eggs and chips, a dozen oysters, and a grilled steak.

After wading through these he finished off with four doughnuts and two cups of coffee.

"When the waiter had finished serving, he remarked: 'You must enjoy your meals.'"

"Far from it," replied the diner. "As a matter of fact, I hate 'em—but I'm nuts about bicarbonate of soda."

He looked like a composite picture of five thousand orphans too late to catch a picnic steamboat. — O. Henry.

PANHANDLE-PLAINS MUSEUM
CANYON, TEXAS

Since April 1943, 336,091 visitors have gone through the Panhandle-Plains Historical Museum. Despite the slowing down of travel during this year, 18,724 people visited the Museum, 2417 of them during August. During this last month, besides Texas, Oklahoma led in attendance, with 109. Others with large attendance records were New York 6, California 61, Missouri 49, Pennsylvania 45, and New Mexico and Michigan 37. Every state in the Union was represented by at least one person.

One of the latest gifts to the Museum is a painting of cloisonne enamel on copper, given by Dr. Linus Long, Field of Ichthyology, Nantucket Island, Massachusetts. The painting is of Diogenes carrying a lighted lantern as he looked for an honest man. Many collectors and students say the enamel is the finest they have ever seen. It is quite possible that the painting was done by Hiro Shige, who was the greatest Japanese artist of the 18th century. The date of the painting is approximately 1710 to 1725. Dr.

Long states that the picture has been in his family for forty years. His father got it when he was stationed in Singapore. The picture given to the Museum is the only one to be seen in the United States.

A portrait of Brian Dunne by Datus Meyers has also been given to the Museum recently. It is valued at \$750. The date of the portrait is 1935. Colonel Goodnight's hack (2-seated buggy) has also been given to the Museum. It is a Spalding brand, and was bought in 1907. Up until the time of Colonel Goodnight's death, the buggy was in use. It was used on the Goodnight ranch for a long time, and was then used in numerous parades as a representation of the old West.

Mrs. Mary Burtz of Canyon has given the Museum a sampler made by her grandmother while in a Catholic convent in Holland in 1800. The sampler is symbolic of the Catholic ritual, and all of the work is done in tiny cross stitching. Mrs. Burtz's grandmother made it when she was fourteen years old. Doing this work crossed her eyes.

Before a great fire in Helicon Hall, the seat of his erstwhile Utopian colony, Upton Sinclair one snowy night told the following tale to illustrate the injustice of the private ownership of land.

A tramp was one day strolling through a wood that belonged to the Duke of Norfolk. The Duke happened to meet him and said, "Do you know you are walking on my land?"

"Your land?" said the tramp. "Well, I've got no land of my own, so I'm obliged to walk on somebody's. Where, though, did you get this land?"

"I got it from my ancestors," replied the duke.

"And where did they get it from?" went on the tramp.

"From their ancestors," said the duke.

"And where did their ancestors get it from?"

"They fought for it."

"Come on, then," said the tramp fiercely, as he pulled off his coat. "And I'll fight you for it."

But the duke, retreating hastily, declined to accept the fair offer.

A sugar planter in Hawaii took a friend from the United States to the edge of a volcano.

"That crater is 70,004 years old," he explained.

"How do you get the exact age?" asked the newcomer. "I can understand the 70,000, but how do you calculate the four?"

"Well, I've been here in the islands for four years, and that crater was 70,000 years old when I arrived."

BURLAP BAGS QUOTAS REMOVED

Quotas on farmers and packers purchases of new burlap bags for packing certain agricultural products have been removed for the balance of 1943. "Certain agricultural products" includes, but is not limited to, beans, cotton, feed, flour, meal, fruits, potatoes, vegetables, and tobacco. The restriction on the bag sizes permitted for certain commodities has been relaxed to allow an additional size for each of

two types of seed. A 1/2 bushel-bag is allowed for hybrid seed corn, a 3 bushel-bag for cottonseed. These are in addition to the sizes previously permitted.

NO DATES ON KEROSENE COUPONS

Persons who use small amounts of kerosene for domestic cooking and lighting may now get renewal rationing for periods longer than the six months formerly permitted. This provision of a recent OPA amendment is to reduce the number of renewal applications by the consumer and the amount of paper work performed by the rationing board. The amendment provides that rationing issued for domestic cooking and lighting no longer will bear dates of issuance and expiration, and coupons may be used as long as they last. The rationing board may issue the ration for any period up to a year from date of application. The minimum ration allowed for domestic cooking has been increased to 30 gallons a month for the first seven persons. It was formerly 24 gallons for six or seven persons.

APPROVAL FOR USE OF GUTTERS

Approval for use of gutters, spouting, conductor pipes, and fittings in dwellings of two stories or less must be obtained from the War Production Board under a recent amendment to Order M-126. Formerly this approval could be obtained through the National Housing Agency.

PRICES SET FOR DRY BEANS

Sales of dry edible beans, 1943

crop, to the Food Distribution Administration, to other country shippers, and to other governmental agencies designated in Food Distribution Order No. 45 can be made at either of two sets of prices—maximum prices established for the commodity or support prices set for specified classes last April by the War Food Administration. OPA emphasized that all other sales must be made at or below maximum prices established in Maximum Price Regulation No. 270.

RESTRICT DRY ONION SHIPMENT

To insure orderly distribution for the short available supply of dry onions to the armed forces and civilians, all shipments in excess of 100 pounds in the 12 principal onion producing states have been put on a permit basis by the Office of Defense Transportation and the Interstate Commerce Commission. Dry onion movements by common, contract, or private motor carriers and by rail common and contract carriers are subject to permits issued by the War Food Administration. Applications for permits should be made to local WFA representatives in the principal onion producing areas—California, Colorado, Idaho, Indiana, Michigan, Minnesota, New York, Nevada, North Dakota, Oregon, Utah, and Washington.

SUGAR TO SAVE BEES

Beekeepers who are facing loss of their bees because of lack of sufficient natural food, may obtain additional sugar allotments if they are registered with OPA as industrial users. The supplemental allotment is limited to a maximum of 15 pounds per bee colony per year. Applications should be made in person or by mail to the local rationing board.

CABBAGE SEED CEILING PRICES

Ceiling prices for 1942 cabbage seed have been made the same as for the 1943 crop, according to a recent OPA amendment.

SHRIMP PRICES CUT

Consumer prices for fresh shrimp may be 40 to 50 per cent less because of a recent OPA amendment setting prices in accord with the 1942 average prices for shrimp.

HOUSING DOWN PAYMENTS CUT

Down payment required to buy housing in rent-controlled areas has been reduced from 33 1/2 per cent to 20 per cent. OPA amended the regulation because of easing the housing situation.

GASOLINE FOR SCHOOL BUSES

School buses in districts where school authorities have delayed in filing necessary applications or have failed to reorganize routes in accordance with the school bus conservation policy may get temporary gasoline allotments. The Office of Defense Transportation authorized this action so that school children would not lack school transportation.

REPORT GOOD WHEAT CROP IN ITALY

In spite of the war, the Italian wheat crop this year is believed to have been as large or even larger than the pre-war average, according to the Office of Foreign Agricultural Relations of the Department of Agriculture. The 1943 crop may have amounted to as much as 280 million bushels. That estimate compares with unofficial estimates of 269 million bushels last year.

BRITISH SAVE FUEL

Britons have been asked by the Ministry of Fuel to be even more sparing of home comforts this winter than they were last winter, the British Information Services reported recently. By lowering room temperatures in their homes, by using less hot water, by getting along with less light, and by cutting down on fuels used in cooking, the British saved four million tons of coal in the winter of 1942-1943. This year the Ministry has urged that economies be pushed further so that six million tons of coal can be saved. As was the case last winter, this winter's fuel saving in Britain will be on a voluntary basis. There will be no rationing but Britons will be expected to base their fuel consumption on a chart prepared by the Ministry of Fuel.

ABOUT THOSE FREE MATCHES

If your tobacco dealer gave you free matches—the wood or the book variety—during March, 1942, when he sold you your tobacco products, he must continue to give them to you now. Sales through vending machines are included in the new OPA ruling on matches.

NOTIFICATION OF "NEXT OF KIN"

Notification of "next of kin" of Naval personnel killed, missing, wounded, or captured—except where death occurs within the continental limits—is generally a telegram giving such available information as may be divulged. In case of death this telegram is confirmed by a letter from the Secretary of the Navy, conveying condolences and giving any additional details. Next of kin are also furnished data as to rights and benefits to which they are entitled. In the case of a "missing" person, the next of kin receives a letter about the continuance of allotments for insurance premiums and for dependants. If the Navy receives further details of the casualty, next of kin are promptly notified.

Austin Wiggins is Here From Pacific Theatre of War

Captain Austin Wiggins, recipient of the Distinguished Flying Cross, the Navy Air Medal and the Purple Heart, is back in the States after 10 months of action in the Southwest Pacific.

Captain Wiggins, former Buffalo football player, '41, is a dive bomber pilot in the marine corps. He has been visiting in Shamrock during the last week with his wife, the former Gloria Stanley, also an ex-student of W. T.

Captain Wiggins received the Distinguished Flying Cross for his part in helping sink Japanese ships off Guadalcanal and the Navy Air medal for participation in an attack on Japanese destroyers. The Purple Heart was awarded for wounds received during one of the major battles in which he took part.

Instead of any mention of his activity in the war zone, the marine officer asked that relatives and friends of men overseas be urged to write those fighting men more often.

"Letters from home mean more to a man overseas than anything else you can do for them," Captain Wiggins said.

Captain Wiggins is the son of Mr. and Mrs. Austin Wiggins, Sr., of Amherst. He has been overseas since October, 1942.

the sea. Each morning a grubby youngster knocked at his door, went in and came out again. After this had gone on for some weeks the curiosity of the villagers was aroused.

"Tell me," said one of the youngsters, "why do you visit that old sailor every morning?"

"Well, sir, he gives me a quarter if I say to him, 'The captain wants you immediately.'"

"And what does he say to that?"

"He says, 'Tell the captain to go to blazes.'"

THE THOUGHTFUL CARE THAT SAVES REPAIR

There is no room for waste in wartime America. Rich in resources though this nation is, it is nevertheless essential that time and energy be conserved.

To household helps, especially electric appliances, proper care must be given in order to keep them on the job.

Check them over regularly, tighten loose screws and nuts, repair cords, clean and oil at frequent intervals.

By thus giving your electric appliances timely attention, they will in turn give you greater service until Victory is won . . .

Wedding Canyon Girl Announced

Announcement has been made here of the marriage of Ensign Helen L. Thomas, N. N. C. and Ensign Thomas W. Thul, U. S. N. R. at Our Lady of Victory Chapel, Naval Operating Base, Norfolk, Va., on August 14.

The Rev. Henry A. Heintzsch, C. S. C., chaplain, U. S. Naval Reserve, celebrated the nuptial Mass. The bride was given in marriage by a close friend, Ensign Charles Craney, who also was best man. She wore the white uniform of the Navy Nurse Corps and carried a white prayer book covered with a spray of white gardenias. She had as her matron of honor and only attendant, a friend, Ensign Emily Thornton, who also wore the Navy Nurse Corps uniform.

Following the ceremony the wedding dinner was given at the Commissioned Officers Club at the

Naval Operating Base for a few friends of the couple. Mrs. Thul is the daughter of Mr. and Mrs. L. E. Thomas of Canyon. She was graduated from West Texas State Training School in 1936 and completed her nurse's training at St. Anthony's hospital in Amarillo in 1940. She has been serving with the United States Navy Nurse Corps since last fall.

Ensign Thul is the son of Mr. and Mrs. F. J. Thul of St. Charles, Minnesota. He attended St. Mary's College, Winona, Wis., for two years and was graduated from the school of business at the University of Minnesota in 1939. He also has been serving with the United States Navy since last fall and at the present time is on active duty in the Atlantic.

Mrs. Juanita Wallander has gone to join her husband who is stationed at Louistown, Mont. She was the former Juanita Langston.

Mrs. Earl Oldham is visiting two sisters in California.

Citizens Warned Not Be Impatient With Regulations

J. W. Shook talked Tuesday at the Rotary Club luncheon on the various government agencies which were operating in Canyon in the war program. He warned citizens not to become impatient at the various regulations as the different agencies were doing everything they could to operate under the rules which were given them.

When the war started, local citizens organized civilian defense, and organized for air raids. Fortunately this became unnecessary but it gave the people something to think about.

Red Cross first aid classes and nursing courses were taken by hundreds of people. These may become useful in the months to come.

The people responded to the various drives for metals, and the scrap metal drive is still on.

Every Red Cross Drive for funds has been easily raised because the people were anxious to help the men in combat.

Selective Service was the first federal agency organized, and more than 525 men have gone from the county.

At the present time the Red Cross needs more workers. The chapter is short on its quota of work. A new project has been undertaken of doing mending for the soldiers at West Texas State and assisting with hospital work for these boys.

The bond financing committee

has been doing a fine work in putting over the various issues.

Relief work will be handled thru one agency in the future, and a drive will soon be made to cover all these funds.

Under the War Price and Rationing Board several panels are operating. The tire panel, gasoline panel and price panel are included.

The USDA War Board has a number of functions, including farm machinery and farm transportation.

The home service department of the Red Cross has handled 101 cases between men in service and home folks during the past three months.

Mr. Shook is serving on the gasoline panel and related some of the experiences which the panel was having. He read from a letter of an oil executive who predicted several months ago the coming gasoline shortage. This executive pointed out the alarming fact that for every ton of supplies which must be shipped to our men overseas, we must send two tons of gasoline.

Visitors were: Wm. Deck of Permyton and John McCarty of Amarillo.

Lt. Ray Crowder and wife spent the week end in the home of Mrs. Crowder's parents, Mr. and Mrs. I. W. Wester. Lt. Crowder is stationed in Mississippi.

T. C. Thompson rode the first new cycle truck, or delivery bike, around the square Saturday.

W. H. Neal of Roswell was here Tuesday visiting relatives and friends.

THE ART OF GETTING ALONG

Sooner or later a man, if he is wise, discovers that life is a mixture of good and bad days. He learns that it doesn't pay to be a sensitive soul. He learns that he who loses his temper usually loses.

He learns that all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's grouch too seriously. He learns that most of the other fellows are as ambitious as he is, and that they have brains as good or better, and that hard work and not cleverness is the secret of success. He learns to sympathize with the youngster coming into the business, because he remembers how bewildered he was when he first started.

He learns that no man ever got to first base alone and that it is only through co-operative effort that we move forward to better things. He learns that folks aren't any harder to get along with in one place than in another, and that "getting along" depends 98 per cent on his own behavior.

MEDICALLY DESCRIBED

A patient who complained of digestive troubles was told by a specialist that he was drinking too much and would have to knock off. "Well," said the patient, "what am I to tell my wife?"

The doctor thought for a few minutes, then said: "Tell her you are suffering from syncope." "That will satisfy her."

"What is syncope?" asked his wife.

"I don't know," said the husband, "but that's what he said."

When her husband had gone out the wife looked up the word in the dictionary, and found that it meant: "Irregular movement from bar to bar."

Winters Sends Out Simpler Directions Old Age Workers

Austin-Johnny Winters, new executive director of the State Department of Public Welfare—the department that administers the Old Age Assistance, Aid to Blind, and Aid to Dependent Children programs—dispatched a newly-written rule book today to the field workers in the county offices throughout Texas. The new manual contains instructions for a reorganized assistance program and has 65 pages less than the one it replaces. It becomes effective on October 20 after expected Social Security Board agreement.

"We're stripping down to racing weight," Winters explained. "We're cutting out a lot of things that would be desirable if we had enough money and enough employees. We're accepting the limitations that exist and we're getting down to essentials."

Supervisors have been summoned to regional meetings throughout the State to study the new rules. State office officials are being sent to these meetings as instructors.

Expressing the hope that the new plan will not "create a public sensation, but will be accepted by the state as the only way out," Winters said that "those on the rolls who are actually in need should have no worries about the changes. They are the ones the changes are designed to protect and help. The department will do its best to make the available money go to the persons who need it most. The public must realize also that the effect of these changes will not be instantaneous. It will take 12 months to finish the job of readjustment since each of some nearly 200,000 cases in three programs must be individually reviewed."

"Within a statutory framework, the legislature requires the welfare department to promulgate rules of eligibility for defining and determining need," the welfare director explained. "Our definition of need has been re-examined in an effort to provide money for the essential first. With limited money available, every dollar must go where it is most needed. We are forced to rule out allowances for purchase of semi-essentials and can no longer afford to overlook resources that could be used to meet needs. In this way we hope to shift a great deal of money now allocated for expenditure on semi-essentials to the purchase of absolutely essential needs. This will result in more money to persons who are most needy and less money to those who are not so needy. In assistance programs, set up by law for the sole purpose of relieving need, this course is logical and I believe that it deserves and will receive full support of the people of the state."

Winters said that just as soon as his field staff was prepared to give information on the changes, full information concerning the most important readjustments will be released to the public.

Mr. and Mrs. B. B. Cluck visited Mrs. Lee Nobles at Wayside Sunday.

THE SEXES

Teacher: "How many sexes are there?"

Little Boy: "Three."

Teacher: "What are they?"

Little Boy: "The male sex, the female sex, and the insects."

DIRE THREAT

"That is a falsehood!" said the teacher severely. "Do you know what will happen to you if you tell lies?"

"Yes'm," said Jimmy nonchalantly. "I'll go to hell and burn."

"Worse than that," said the teacher. "You'll be expelled from school."

WHAT MIGHT HAVE BEEN

The farmer and his daughter went to market with butter and eggs, and after selling out were returning home with the horse and wagon and money when they were attacked by bandits. The farmer wept as he saw his horse and wagon disappear.

"Don't cry," said the daughter, "they didn't get our money, anyway. I put it in my mouth."

"What a clever girl you are," the farmer exclaimed. "Just like your mother. I wish she'd been here; we might have saved the horse and wagon."

Rastus: "Say, boy, can you tell me de time it is?"

Sambo: "I don't know zactly, but it ain't fo' 'clock yet cause I got to be at work by fo' and I ain't dere yet."

MY JIMMY NEEDS YOUR HELP!

Jimmy's over there now, fighting our enemies to keep the Stars and Stripes flying. Before he left, he told me they are going to need more equipment, more ammunition and more food for INVASION of enemy lands. "The more bonds the folks at home buy—the more they'll be helping us fighters to win." That's what Jimmy said.

The 3rd War Loan of 15 billion dollars must produce the money to pay for these essentials to victory.

Buy at least one EXTRA \$100 Bond besides your

regular bond purchases—many will have to invest thousands!

Don't think that what you do isn't important. It will take all every individual in America can raise to put this 3rd War Loan over the top. So buy more bonds out of your pay—out of extra income—out of "rainy-day" funds!

The quicker you do that the more you'll help Jimmy and our other boys smash through to Victory.

What do you say? It's the safest, soundest investment you'll ever make! Let's go!

THOMPSON'S

Popular Showman To Boost War Bond Sale Monday

HARLEY SADLER

"Ravaged Earth" is the story of the actual invasion of China by Hirohito's Sons of Heaven... and the actual attempt at the complete destruction of this peaceful nation by the bestial barbarians of the Pacific. It shows how the Japs fight... the uncensored atrocities they perpetrated upon the Chinese at the time they infiltrated into Shanghai, Foo Chow, Peking and other historical cities.

Mr. Moody, an American business man in China for 23 years, used a 16 mm camera to film these scenes, concealed the film in bamboo fishing poles and smuggled them out of China. They were brought to the United States but were prohibited from being shown prior to Pearl Harbor for diplomatic reasons. However, since Pearl Harbor the picture had been shown to Defense workers, and members of the Armed Forces. Only recently has it been released for general public view.

"Ravaged Earth" is not a pleasant picture, but it does tell the truth about what our boys are up against in the Pacific. It is said to be the only picture ever presented to the public, in all the history of the motion picture industry, that has received unanimous acclaim from all who see it. It will be shown at the Sadler Tent Theatre, one night, Monday, Sept. 27th.

Mr. Sadler is a well-known West Texas showman and State Representative from the Sweetwater District.

Highland News

The Highland H. D. Club Achievement Day has been postponed and the club met with Mrs. L. J. Fulton on Tuesday.

Wildorado Community raised \$6,437 at its Bond Rally and chicken fry at the Wildorado picnic grounds Sunday afternoon.

Bro. Arnold of Amarillo preached his first sermon at the Wildorado Methodist Church Sunday. He will finish this year's work for Wildorado and Adrian since Bro. Williamson moved to Dallas to continue school at S. M. U.

Mrs. William Cretzinger visited Mrs. Geo. Mason, Friday afternoon. Mr. and Mrs. Raymond Debenport moved from the Vineyard place to 1801 Broadway in Amarillo last Wednesday.

Another move we failed to mention last week: Mrs. Edith Walton and Mildred moved to their new home at 800 Carolina Street in Amarillo week before last. The Walton family have lived in the Bushland or Wildorado community for the past 30 years and will be greatly missed.

The Everett Milhoan family moved to the place vacated by the Waltons.

Mrs. Carl Fuqua visited Mrs. Elam and Mrs. G. L. Webb last Friday.

Mr. and Mrs. Kenneth Broadus had dinner at the John Broadus home Thursday evening.

Mr. and Mrs. Tom Watson and Mr. and Mrs. Ray Debenport visited at the Fuqua home Thursday evening.

The Highland school trustees met with the Wildorado school board Wednesday evening. The trustees also did some repair work on the Highland school this week.

Word from Rev. Lloyd Garrison at Fort Worth is that he is doing fine in school.

"The sea is calm tonight. The tide is full, the moon lies fair Upon the straits;—on the French coast the light Gleams and is gone; the cliffs of England stand, Glimmering and vast, out in the tranquil bay."

"Ah, love, let us be true To one another! For the world, which seems To lie before us like a land of dreams, So various, so beautiful, so new, Hath really neither joy, nor love, nor light, Nor certitude, nor peace, nor help for pain; And we are here as on a darkling plain Swept with confused alarms of struggle and flight Where ignorant armies clash by night."

—from "Dover Beach" Matthew Arnold.

HELL TO HITLER

Hitler died and went "below." Satan answered his knock, told him to wait a minute, went away, and returned with a box of matches and a bundle of firewood.

He gave both to Hitler with the remark: "Listen, Adolf, there's a limit to what even we can stand. Take these and start a hell of your own."

"How much would your mother give you for four pounds of tea at one and six a pound?"

"We ne'er get sae much at aince as that, mem."

"Never mind that. Four pounds at one and six?"

"But we canna' afford the one and six, mem. We always hae the one and twa."

"Answer the question. What would she give you to pay for four pounds of tea at—"

"Naethin', mem. She'd na' gie me ony bawbees. She'd tell me tae ask the man tae pit it doon."

"Oh, dear! Oh, dear! But supposing she did?"

With a pitying smile came the urchin's reply: "A' can see y've ne'er met ma mither, mem."

TAKING NO CHANCES

Jones was waiting for a bus when a stranger approached and asked the time. Jones ignored him. The stranger repeated the request. Jones continued to ignore him. When the stranger finally walked away another passenger said curiously: "That was a perfectly reasonable question. Why didn't you tell him what time it was?"

"Why?" said Jones. "Listen, I'm standing here minding my own business and this guy wants to know what time it is. So maybe I tell him what time it is. Then what? We get to talking and this guy says, 'How about a drink?' So we have a drink. Then we have some more drinks. So after a while I say, 'How about coming up to my house for a bite to eat?' So we go up to

my house and we're eating ham and cheese in the kitchen when my daughter comes in, and my daughter's a very good looking girl. So she falls for this guy and he falls for her. Then they get married, and any guy that can't afford a watch I don't want in my family."

CIVIL SERVICE

Father had his little daughter on his knee.

"What are you going to do when you grow up?" he asked her.

"I'm going to marry an engineer," replied the child.

"And what kind?" he asked. "A civil engineer?"

"Oh, replied the little girl, "it doesn't matter what kind. I'll soon make him civil."

P.S.

Of course, I haven't forgotten that trip we planned that was interrupted when you joined up. I dream about it and plan it down to the last detail. Of course, we'll have to go in our present car, as we probably can't get a new one as soon as you get back. So, like a hen with a chick, I'm mothering it no end. Down it goes every week to your old friend Mileage Merchant Jim, and he does everything to it. He says to tell you he's keeping the engine OIL-PLATED with Conoco Nth motor oil and for you not to worry. It will be in fine shape for our trip —says he'll practically guarantee it!

I GIVE YOU TEXAS

by
BOYCE HOUSE

A good story is told by Charles Dean, former prosecuting attorney of the Plainview district. In the "good old days" of long ago, it was the custom of some defense attorneys, after a case had gone to the jury, for one of them to climb up over the attic rafters and try to hear what the jurors were saying. In one important case, the defendant's attorneys drew straws and the loser made his way to the "observation post." He came back, brushed off the cobwebs and, when asked what it looked like the jury was going to do, he replied:

"I haven't the least idea. The only thing I heard was when one juror asked, 'How do you spell penitentiary?'"

One of the smart alecks of the East, who writes a column of misinformation on the war and politics, sneered a while back at Texas because our state leads the nation in the number of volunteers. He said that the standard of living is so low down here that the Army pay looks like a fortune. His statement is, of course, a slander on our patriotic soldiers and sailors who are offering their lives for their country—including such ingrates as the scurrilous Eastern commentator. But he keeps on writing for the big city paper so the owner and the editor must approve of such slime, too, or else they would have fired him.

The door of every true American should be closed against him and he ought to be forced to eat the offal from the swill barrels in the back alleys along with his four-foot brothers.

Speaking of checkers (which we were, some weeks ago) I once knew a man who had a crooked joint on the second finger of his left hand. If he was about to have to move a checker out into an unprotected position, he would shove it forward with his forefinger and, at the same time, would drag another checker along with that warped finger, his hand concealing this extra maneuver. His friends were "on" to him and he didn't try this with them but a stranger playing him would look puzzled and say, "I could have sworn that checker was going to be out there by itself."

Referring to the Tennessee city, P. T. Barnum, prince of showmen, remarked, "There are more fools with half dollars in Memphis than any other place in the world." And it was Barnum who said, "The American people like to be humbugged."

A similar remark, but much more optimistic, was Lincoln's: "You can fool some of the people all of the time, and all of the people some of the time, but you can't fool all the people all the time."

Wayside Items

A preacher and wife of the Assembly of God Church in Amarillo delivered good sermons Sunday morning and night.

Mr. and Mrs. Ewing McGehee and children have lately purchased a nice home in Canyon and have moved for the benefit of the school there.

Mr. and Mrs. M. L. McGehee received a wire from their son, Kotten, saying he and Alice were married September 18.

W. H. Hamblen made a trip to Amarillo Monday.

Plowing and wheat sowing is the order of the day; also some are cutting their row crop.

Mr. and Mrs. W. R. Franklin and Glen, also Mrs. E. V. Fryburger of Denton and Herbert Franklin of Monon, Indiana, were guests in the Roy Franklin home in Canyon Sunday afternoon.

Our school began Monday morning with Mrs. Lowe McGehee and Mrs. Melton McGehee as teachers.

Mr. and Mrs. Wm. Payne have moved to Dumas where Mr. Payne is employed at the Cactus plant.

Wish not so much to live long as to live well.—Franklin.

It'll cost you an extra \$100 Bond

To look him in the eye!

HE'S AN AMERICAN SOLDIER.

Some day, if God is with him, he'll come home.

And when he does, you'll get the biggest thrill of your life if you can look him squarely in the eye and say, "I couldn't help you fight—but I did everything in my power to help you win!"

There's only one way you *can* say that... honestly say it. And that is to help him win *now*... when he needs all the help you can give him.

Today's particular job for you is to scrape together

every dollar you can—and buy an *extra* \$100 worth of War Bonds! That's *your* job in the 3rd War Loan!

It's not enough to buy your regular amount of Bonds. It has to be *more*. It has to be an *extra* buy—a little *more* pressure for the shoulder that's against the wheel.

TO BE PRECISE

A member of a psych class on tour asked an inmate his name.

"George Washington," was the reply. "But," said the perplexed lad, "Last time we were here you were Abraham Lincoln."

"That," said the inmate sadly, "was by my first wife."

Flapper (To Captain): "You can't fool me calling those life savers; why no one could get one of them in his mouth."

Zoo Debut

Linda, a fallow deer, looks almost as goggle-eyed as does her newest offspring making an initial appearance at Prospect Park Zoo in New York. The baby weighs 15 pounds. Both are doing fine, thank you.
